

INT. PLAYROOM - DAY

C/U of a window sill mounted OUTDOOR THERMOMETER showing that the temperature is high and RISING. We PULL BACK through the open window and past a BLOWING FAN, just as MARLA and JACK come racing into the room.

1 JACK

I get to sit in front of the fan - called it, locked it, put it in my pocket!

2 MARLA

Not if I get there first!

They both arrive at the same time and flop down together.

3 JACK/MARLA

(impact, flop down... relieved
<SIGH> as the cool air hits them)

4 MARLA

This must be the hottest day of the summer, Jack.

5 JACK

You mean the hottest, roastiest, sweatiest, toastiest day ever!
(to camera, noticing the kids at home)
Oh - Hi, Wonder Buddies! Marla and I have just come in from playing outside to cool down - but I don't know if this fan's going to do it.

6 MARLA

You know what *would* cool us down Jack? A nice, big, cold scoop of ice cream!

SF/X <MAGIC CHIMES>.

The <CHIMES> makes Marla and Jack look over to the bookshelf and the SNOW GLOBE we all know - that one with the world inside it floating in a sea of glitter. It's starting its routine, emitting a glowing light, as colorful sparkles swirl within!

7 MARLA

Hey! The magic snow globe likes the sound of that, too... I think it wants to show us how ice cream is made!

8 JACK

Awesome! I'd love to know that!
(to camera)
How about *you*, Wonder Buds? Do *you*
want to know how ice cream is made?
(beat)
You do? Great!

They move to the snow globe, excited. Marla picks it up and shakes it in rhythm to the magic words she and Jack speak. As they do this, the colorful sparkles within the globe swirl faster and faster, extending out into the room;

9 JACK/MARLA

*Then off on a fact-finding journey we go
Into the magical sparkles to know
The WHERE,
The WHAT,
The WHY and HOW
Of the world around us
Our journey starts NOW!*

As they say "WHERE?", "WHAT?" "WHY?" and "HOW?" the words appear out of the glitter and orbit our heroes. The sparkles envelop them and suck them into the snow globe.

CUT TO:

EXT. FARM - DAY

ESTABLISH a barn, a fenced paddock, a silo - your typical farm - as a cloud of swirling sparkles delivers Marla and Jack to the scene. They look around.

10 JACK

A farm!

11 MARLA

I wonder why the globe sent us to a farm. I thought we'd be going somewhere *cold* to learn how something as cold as ice cream is made.

(to camera)

Wonder Buddies, do *you* know why we're on a farm?

From O/S we hear;

12 COW (O.S.)

(moo)

13 JACK
(giggles) Was that your tummy? You must *really* want some ice cream.

14 COW (O.S.)
(moos again)

15 MARLA
That's not my tummy, Jack. It sounds more like --

A COW wanders into frame behind them.

16 JACK/MARLA
A cow!

17 MARLA
(to camera)
Ummm. Do you think a cow might have something to do with how ice cream is made?

The cow looks up to them, smiles and;

18 COW
It all starts with meee - moooooo!

Jack and Marla find a talking cow funny (who wouldn't?).

19 JACK/MARLA
(giggle)

20 JACK
(to camera)
Wonder Buddies, we just found the answer to WHERE ice cream begins!

SUPER: the word "WHERE?" sparkles on screen.

21 MARLA
On a farm!

22 JACK
With a cow!

23 COW
That's me!
