

# Brain Storm & Me

## Comedy

### The Story

Emma's just like any other 8-year-old girl. She attends school, plays with her friends and argues with her little brother. But Emma has a lively imagination; so lively that it can climb out of her head!

Whenever Emma's in trouble (or just bored) she's helped out by the physical embodiment of her imagination, an eight-foot monster named Storm, who can take any form Emma can imagine and together they get into crazy situations and have wild adventures!

### Characters

Emma (8 years-old) Precocious, clever and funny. She's our hero and we see the world through her eyes.

Storm (a monster made of clouds and lightning) Funny, silly, sometimes stupid but ultimately wise. Storm is the living personification of Emma's imagination. He can turn himself into anything he needs to help Emma out. (jet airplane, boat, tree, fly swatter, etc.)
